> In connection with the Hanover Tournament the Chronicle says :- The most astonishing, as it is the most welcome and well-deserved, success has attended the first efforts of Mr H. E. Atkins in an International contest. He is close on thirty years of ago, and has been known as a player for about ten years. It is a sad commentary on the provincial and parochial chessin England that Mr Atkins had to go to Germany in order to be discovered as a great English player.

Mr S. Rosenthal, the celebrated Professor and master player of chess, who died on 12th ult., was a Russian Pole, who took refuge in Franco, being implicated in the Polish insurrection of 1864. He became naturalised, and resided over since in Paris, where he was held in high esteem. As a chess professor he introduced the game in 2062 society, and established the Paris Corcle.

He was chiefly instrumental in organising the International Tournament during the last Exhibition at Paris. M. Rosenthal was not successful in practical play, owing to constitutional nervousness. But as a cor-ON the UPPER LEVELS, an UNspendence player and analyst he had no FURNISHED HOUSE, with a fine equal. In tour manents he generally played some fine games. In the Vienna Tonrnament, 1878, he beat Blackburne, which cost the latter the first prize. In the Lon-don Tournament, 1883, he was awarded the Messas. DENISON, RAM & GIBBS, prize for the most brilliant game by heating Steinitz, and he played some fine games proviously in a match against Dr Zukertort.
M. Rossenthal has had the privilege of resuscitating the taste for chess in France;

man may do as he likes; but two men Scientific investigations have revealed the true nature and composition of cod iver oil, which have been thoroughly, verified by experience. No longer is it necessary to force down a dose of nauseating, repulsive cod liver oil to get its medicidal effects. The extractives—the tonic, curative, re-building part-may be taken separately in a pleasantly palatable form and with far better result. The grease-the oil - is not only uscless, but is

undesirable and often derrimental. Stearns' Wine of Cod Liver Oil is unexcelled as a tonic and reconstructive. It is free from oily matter-devoid of any intimative of cod liver oil, yet is the most effective preparation of the latter ever offered. Just the thing for run down, weakened, puny conditions of the system. Its best friends are those who have tried it, and know what it is. Wholesale from A. S. Watson & Co., Ltd., Hongkong.

TURDAY, OCTOBER 18, 1902. EDITORIAL COMMENT.

From all parts of Indo-China, Tonkin THE DROUGHT and South China discouraging reports are

held on Monday, at 5.15 p.m., in the room of the Union, 13 Beaconsfield Arcade. Mr about the rice crop, which seems to have W. J. Anstey, R.N., will preside. been a complete failure. Fortunately for Hongkong, the protracted drought International Telegraph Conference. of the early part of the year was followed by a plentiful rainfall, and unless another period of unusual drought follows the quantity of water impounded here and on the mainland should be sufficient to carry the Colony over to the next rainy season. But in South China, with little prospect of heavy rains for months to come, the damage done is quite irretrievable. The wells will soon dry up, and there is no systematic storage, as at Hongkong and Shanghai. The autumn crops are in a bad state in Kwangtung and Fokien Provinces, and famine seems to be inevitable. Al ready the rivers are very low, so that only light draught vessels can navigate them. In Amoy, the wells are drying up, and where the people are to get their fresh serious question. At that port, there has been a steady and alarming decrease in the rainfall, as the following figures | \$600; public billiard table, skittle ground, Offices of Messrs Jardine, Matheson for the last six years will show :-1897, nine-pin, or bowling alley to \$100; Chinese Hongkong Branch of the Navy League

first eight months of this year 25.13. It is feared that this year's rainfall will | Colonel J. T. Sterling. not reach 30 inches. By local meteorological students it is considered that this lack of rain is due to the failure of the S. W. monsoon; but we see that the Government Meteorologist of Queensland, Mr Clement Wragge, accounts for the great drought in Australia this year by 'A most dis-

tant inter-relation between sun-spots and the earth's magnetism,' and he contends that variations in the physical condition of the sun are, in the main, responsible for this and all such previous droughts. If this he so, then the

professional rain-makers may go out of business. The prohibition of pig-slaying and oxen-slaying can be of no avail: and, on the principle of Sir Colin | for a sewerage and water system for Manila, Campbell, who told his men to 'pray to God but keep their powder dry,' it would seem that the best way to avoid

day for the time of drought.

The Clan Smith.

Representatives of the Smith family have applied for space for a building at the World's Fair to be the headquarters of the members of that great family when visiting the Exposition.
